

中欧环境治理项目--地方伙伴项目

中欧环境治理项目--贵州项目

推动贵州环境司法发展，维护贵州公众环境权益

当今社会，很多中国人遭受着水、空气和废物等环境污染。而与此同时，他们不了解什么是环境权益，也不懂得如何使用法律手段来维护环境权益。

该项目目标是通过推动公众参与环境司法，保护公众环境权益，从而提升中国的环境治理水平。项目所在地为贵州省。贵州省在保护公众环境权益方面起步较早，已经积累了不少经验，例如，中国第一个环保法庭是2007年在贵州省成立的。

项目具体目标:

- 提高维护环境权益的意识
- 加强环境司法能力建设
- 提出环境公益诉讼政策建议

项目活动

为深入了解贵州省环境司法现状，本项目会首先启动现状调查工作，随后开展对公众和政府官员的环境司法意识提升活动，包括制作环境权益和环境正义方面的电视节目，项目信息资料发布，网站建设以及环境权益维权手册出版等。本项目将针对环境管理者、技术人员、律师、NGO代表和环境执法人员等不同目标群体需求，组织研讨会、座谈会等形式的一系列能力建设活动。最后，根据贵州省当地的经验，向立法部门提供关于环境公益诉讼、环境损害的责任及补偿的立法提案及政策建议。

目标群体:

本项目的主要受益方是贵州公众。通过本项目实施，他们懂得使用环境司法手段来维护环境权益。同时，该项目也对当地政府部门、律师事务所以及志愿律师、企业和NGO进行能力建设，提高当地环境司法执行水平。

该项目不仅要推动贵州环境司法发展，提高贵州环境治理水平，而且希望以贵州项目案例为起点，在中国其他省份和中央政府层面能够巩固推广本项目成果，也为中国政策制定提供实施基础。

项目实施单位

- 瑞典环境科学研究院 (IVL)
- 中华环保联合会 (ACEF)
- 贵州省环境保护国际合作中心 (GZICCEP)
- 贵阳公众环境教育中心 (GPEEC)

项目简况

- 项目总预算120万欧元
- 项目开始时间为2012年10月1日，2年执行期
- 项目归属于中欧环境治理项目

A partnership project within the EU-China Environmental Governance Programme

EGP-GUIZHOU

Improving environmental justice for the citizens of Guizhou Province

Today many people in China suffer from environmental problems relating to water, air and solid waste pollution. At the same time, they are often unaware of their environmental rights or lack knowledge about how to defend them.

This project aims to improve the public's access to environmental justice, protecting the public's environmental rights and to contribute to the improvement of China's environmental governance. The project focuses on the Guizhou Province, which already has had experiences in protecting the environmental rights of the public – for instance, the first Chinese environmental court was founded here in 2007.

Project objectives

- Raise awareness of the public's environmental rights.
- Improve the capacity of relevant organizations and professionals
- Leverage policy change to improve China's environmental governance.

Activities

First of all, a baseline study will be conducted to gain a deeper understanding of the status of environmental justice in Guizhou province. This will be followed by activities to raise awareness amongst the general public and government officials on environmental justice. This includes the production of TV programmes on environmental rights and access to environmental justice, information materials and an easy-to-read handbook on public's environmental rights.

A number of capacity building activities will also be organized, including seminars and workshops for governmental officials, technicians and lawyers, NGO representatives and judicial authorities. Finally, based on local experiences in Guizhou province, legislative proposals and policy recommendations on the public interest litigation system as well as liability and compensation for environmental damages will be prepared.

Target groups

The main beneficiaries of the project will be the people of Guizhou, who will have better access to environmental justice, but much effort will also be made to build know-how within local governmental institutions, judicial authorities, law firms and volunteer lawyers, enterprises and non-governmental organizations.

The project does not only aim to improve the access to environmental justice and environmental governance in the Guizhou Province, the ambition is also to provide input to central level policy-making in China.

Project partners

- IVL Swedish Environmental Research Institute (IVL)
- All-China Environment Federation (ACEF)
- Guizhou International Cooperation Centre for Environmental Protection (GZICCEP)
- Guiyang Public Environmental Education Centre (GPEEC)

Basic information

- Total project budget 1,2 million EUR.
- The project started 1th of October 2012 and will continue for two years.
- The Guizhou-project is one of 15 local Partnership Projects under the EU-China Environmental Governance Programme (EGP).
